KEY BENEFITS:

- Superior Appetite Management†
- Powerful Jitter-Free Energy†
- Effective Weight Management†
- Potent Nootropics†
- Aids in Burning Fat†
- Relieves Fatigue†
- Improves Mood & Focus†
- and Other Health Benefits†

OUR LEGENDARY COMMITMENT TO QUALITY

Saba is committed to creating supplements made with the best possible ingredients in full compliance with strict cGMP manufacturing procedures. Saba never stops working to earn your trust by exceeding expectations and helping our community, friends, and family achieve their wellness goals every day.

Third-Party Lab Tested – Ace is made with fully disclosed ingredients that undergo strict quality control to ensure each capsule meets the highest standards for purity, quality, and potency so you can enjoy the best results possible.†

WHY ACE?

ACE YOUR WEIGHT MANAGEMENT

Each ACE capsule contains an effective dose of the most powerful fat-burning ingredients available. Our legendary formula helps burn fat, increase energy, preserve lean muscle, suppress appetite, boost metabolism, and improve mood.†

JITTER-FREE ENERGY & APPETITE CONTROL FORMULA

Conquer your day and crush your workouts with our renowned jitter-free energy that is sure to keep you going and keep up with all of life's demands. Help eliminate unhealthy snacking habits and overeating. Keep your food cravings in check with ACE!†

NOOTROPICS & ENERGY REDEFINED!

Based on our desire to be the best, Saba ACE[™] contains our perfect blend of Dynamine[™], Caffeine, and L-Theanine delivering smoother jitter-free energy and a nootropic feeling that you have to try it to believe!†

SUPPORT GLUCOSE AND CHOLESTEROL MANAGEMENT WITH: CROMINEX[®] 3+

ACE is upgraded with the most advanced chromium complex with Capros[®] Amla fruit extract and adaptogenic PrimaVie[®]. Crominex[®] 3+ to help support: Normal cellular glucose absorption; Healthy endothelial function; Healthy Lipid and triglyceride levels; and cellular energy production.†

** Saba ACE has been our top-selling weight management & energy product for several consecutive years.

saba[™]
for you. for life.

INGREDIENTS YOU CAN TRUST OUR CAREFULLY CURATED "MASTER-MIX" IS BETTER THAN EVER!

VITAMINS B6 & B12

The B complex of vitamins plays an important role in healthy body weight and has been shown to help you achieve a normal, energy-yielding metabolism. Optimal levels of Vitamin B are also key to reducing tiredness and fatigue, a goal for anyone looking to stay fit and healthy.†

DYNAMINE™

Dynamine™ is a natural stimulant used to increase energy and alertness. Packing a harder punch in a shorter time and is active longer than other stimulants on the market. Dynamine™ enhances oxygen uptake and increases energy, which helps burn more calories and fat, bringing you closer to a leaner physique.†

EVODIAMINE

Evodiamine comes from the plant called *Evodia Fructus*. A stimulant that increases your resting core temperature and body heat. Research suggests that this is the reason more calories and fat are burned for energy when consuming Evodiamine.†

L-THEANINE

The relaxing amino acid found in tea, theanine promotes relaxation without sedation. It helps you stay calm without making you tired or drowsy. Theanine can reduce stress, improve attention, and helps take the 'edge' off of many stimulants.†

THE ACE OF APPETITE CONTROL & ENERGY IS BACK!

CROMINEX® 3+ (CHROMIUM)

We've added Crominex® 3+. A special form of premium chromium blended with Capros® Amla fruit extract (Indian Gooseberry) and patented shilajit (PrimaVie™) to support glucose metabolism; a process that generally converts glucose into energy for cell utilization.†

GREENSELECT® PHYTOSOME®

Greenselect® Phytosome® is a green tea extract free of caffeine and formulated with lectin to improve the absorption of catechins. Clinical Studies have shown that consumption of 150 mg twice a day, combined with a reduced-calorie diet resulted in an average weight loss of over 30 lbs in 90 days. The definitive ingredient to help ACE your weight management!†

AFRICAN MANGO (IRVINGIA GABONENSIS)

Iringia Gabonensis targets multiple metabolic pathways in the body associated with satiety, appetite control, metabolism, fat burning, and blood sugar balance. Studies have shown that consumption twice daily before meals yielded significant improvements in body weight, body fat, waist circumference, and blood glucose levels.†

APPLE CIDER VINEGAR

Apple Cider Vinegar is one of the most popular natural ingredients. It helps cleanse the body and fight unhealthy bacteria. Studies suggest that Apple Cider Vinegar can increase feelings of fullness and help people eat fewer calories, which can result in improved weight loss.†

GARCINIA FRUIT EXTRACT (GARCINIA CAMBOGIA)

Garcinia Cambogia is a tropical fruit when consumed leaves you feeling more satisfied. The skin of the fruit is naturally high in a substance called hydroxy citric acid. This active compound helps keep hunger in check and avoid overeating, emotional eating, snacking between meals, and unhealthy sugar cravings.†

NATURAL CAFFEINE ANHYDROUS

Caffeine is a methylxanthine found in a variety of plants, especially tea leaves and coffee beans. Caffeine is one of the most well-researched stimulants, with evidence showing it can enhance athletic performance & endurance.†

BIOPERINE®

BioPerine® is a patented form of black pepper fruit extract, which promotes the absorption, and duration of action of all other ingredients found in Saba Ace to increase their bioavailability.†

BUILT BY SCIENCE POWERED BY NATURE

SABA ACE CLINICALLY-PROVEN INGREDIENTS

CLINICALLY-PROVEN INGREDIENTS TO ACE YOUR BEST LIFE!

Saba began with a simple passion of sharing with the world that the path to total wellness begins in nature. We are consistently on the look-out for the most effective breakthroughs in natural science. We are constantly studying the latest peer-reviewed studies to keep on top of the latest in holistic wellness, ensuring that every ingredient is safe, effective, and driven by science. At Saba we are not interested in gimmicks or trends, we put in the work to ensure that every Saba product will offer long-term benefits for every lifestyle.

Below you will find a sampling of some of the impressive results from Clinical Studies performed on some of our key ingredients

CROMINEX® 3+

(CHROMIUM)
Crominex 3+ is a special form of completely safe chromium blended with Capros® Amla fruit extract (Indian Gooseberry) and patented shilajit (PrimaVie®), a mineral-rich compound) to maximize bioavailability. Crominex 3+ provides great health benefits, including support of cellular glucose metabolism, promoting cardiovascular health, and helping maintain healthy blood sugar, lipid and triglyceride levels already within the normal range†

HIGHLY STUDIED, WITH IMPRESSIVE CLINICAL RESULTS

In a 12-week placebo-controlled clinical study Crominex 3+ (versus the placebo) had significant improvements in several important heart markers, including:

- 55.8% decrease in CRP, a key inflammatory marker: versus a 2.1% increase for the placebo group. (This is extremely important for heart health!)
- 27.3% increase in HDL cholesterol: versus .3% for the placebo group.
- 27.7% decrease in LDL cholesterol: versus a 3.6% increase for the placebo group.
- 25.4% decrease in triglycerides: versus a .5% increase for the placebo group.
- 21.7% increase in glutathione, your body's master antioxidant: versus a 1.9% increase for the placebo group.
- 3.9% increase in endothelial function, the cells responsible for healthy blood flow: versus a 1.4% decrease for the placebo group.

CLINICAL STUDY:

One hundred overweight patients were treated with 150 mg of Greenselect® Phytosome® twice daily (300 mg/day). All patients (treated and placebo) were put on a low calorie diet (1250-1350 Kcal for women and 1650-1750 Kcal for men) distributed in 4 meals per day. Parameters such as body weight, body mass index, waistline, total cholesterol, basal glycemia and total triglycerides were measured at the beginning, after 45 days, and after 90 days (end of the study). The average weight loss was 6 kg in the diet only group and 14 kg in the treated group. Results showed that Greenselect® Phytosome® provides clinically demonstrated support in weight management.

GREENSELECT® PHYTOSOME®

Greenselect® Phytosome® is a green tea extract devoid of caffeine and formulated with lectin to improve the absorption of catechins. Each serving of Saba ACE® contains 150 mg of the clinically studied GreenSelect® Phytosome®. Oral consumption of 150 mg twice a day, combined with a reduced-calorie diet resulted in an average of over 30 lbs. weight loss in 90 days in a clinical study.†

AFRICAN MANGO

(IRVINGIA GABONENSIS):
Irvingia Gabonensis targets multiple metabolic pathways in the body associated with satiety, appetite control, metabolism, fat burning, and blood sugar balance. In one clinical study, Irvingia Gabonensis was administered at 150 mg twice daily before meals for 10 weeks to overweight and/or obese volunteers. The study yielded significant improvements in body weight, body fat, and waist circumference as well as plasma total cholesterol, LDL cholesterol, blood glucose.†

CLINICAL STUDY:

The result of a 10-week randomized, double-blind, placebo-controlled study on 72 obese or overweight participants revealed the following results: The test group lost an average of 26 lbs. (11.8 kgs) over the 10-week period, and body fat decreased by an average of 20.06%, and waistline decreased by an average of 8.6 inches. African mango seed extract has been found to have significant effects on lowering cholesterol, specifically LDL or low-density lipoproteins and triglycerides (bad cholesterol), increasing HDL (good) cholesterol, and helping people lose weight.†

DYNAMINE™

Dynamine™ is a natural stimulant that is used to increase energy and alertness. Dynamine™ is a close relative of the already highly sought after product, TeaCrine™ – only Dynamine™ is said to pack a harder punch in a shorter period of time and is active longer than other stimulant on the market. Dynamine™ enhances oxygen uptake and increases energy output, which helps burn more calories and fat. If you're able to burn more fat and calories throughout the entire day, you can achieve added benefits, including weight and fat loss, and a leaner physique.

CLINICAL STUDY:

There have been numerous studies on compounds which may enhance the beneficial effects of caffeine on energy, mood/motivation and focus. Recently, a landmark clinical trial was conducted at a major Division I university to investigate Dynamine™'s potential pharmacokinetic interaction with caffeine. Remarkably, researchers discovered that Dynamine™ extended caffeine's half-life and increased its area under the curve approximately two-fold. The reverse was not true (i.e. caffeine did not alter Dynamine™'s pharmacokinetics). This data has widespread implications for product formulations that utilize this compound and suggest that lower doses of caffeine may be used in products containing Dynamine®.
